JUST UPDATED!

ENVIRONMENTAL SCIENTIST CERTIFICATION

Now, there is an opportunity for environmental professionals who are not engineers to receive special recognition for their education and work experience. The CES was originally developed to serve the many environmental scientists and specialists employed by the U.S. EPA

The purpose of the **Certified Environmental Scientist (CES)** credential is to establish a person's understanding of the basic principles of environmental science, including: chemistry, physics, earth science, biology, meteorology, zoology and environmental health. A comprehensive CES Study Guide is provided as part of the workshop registration.

PREQUISITES

Education: Bachelor's degree in an environmentally-related discipline. Three (3) years of acceptable work experience may be substituted for each year of an academic degree program.

Work Experience: Three (3) years directly related to an environmental science.

Exam Requirements: 2-hour timed, 100 multiple-choice scaled question exam. The questions are designed to determine an individual's knowledge relative to the science coordination and management of environmental programs. The general topics covered on the exam include knowledge of Air Pollution, Biosolids, Brownfields, Clean Air Act, Clean Water Act, Ecosystems, Hazardous Waste, Human Health, Indoor Air Quality, Mercury, Molds, Oil Programs, Ozone, Pesticides, Radiation, Solid Waste, Waste Disposal.

Who should take the CES?

The CES certification is open to any individual who has an interest in improving his/her environmental work status in the private, public, and academic sectors. A CES certification helps to demonstrate that technicians, supervisors and managers have received training in the basic environmental sciences. You will want to become CES certified if you are in any of the following groups:

You work for a governmental agency.

You work for a private organization that performs environmental sampling or testing.

You work for a firm who are consultants, manufacturers, attorneys, etc.

A minimum of 3 years of environmentally-related experience is needed. We will help get you up to speed with the environmental regulations, testing and sampling techniques.

INSTRUCTOR

Laura Jankower has extensive experience in conducting environmental compliance management and holds a Bachelors degree in Biology/Chemistry. She holds a patent in resilient mircobeads. Laura is a Certified Environmental Scientist (CES), Registered Environmental Laboratory Technologist (RELT) as well as a Certified Infrastructure Preparedness Specialist (CIPS) and a Registered Environmental Manager (REM). In addition, Laura is affiliated with the National Environmental Laboratory Accreditation Conference.

NREP accepts VISA, MasterCard and American Express.

The NEXT Workshops and Exams:

May 15-16, 2008: Philadelphia, PA
Courtyard Philadelphia Airport, (215) 365-2200

June 5-6, 2008: Elko, NV,
Elko Convention Center & Theater, (775) 738-4091

June 26-27, 2008: Dallas, TX
Residence Inn, (972) 871-1331

July 10-11, 2008; Baltimore, MD
Residence Inn BMI Airport (410) 691-0255

Workshops Start at 8:00 a.m. and end at 4:00 p.m. each day. Attire: casual

LODGING AND LOCAL TRANSPORTATION:

Hotel sleeping arrangements are the responsibility of the workshop attendees. Contact hotel directly for room rates.

VALUE PACKAGE:

Cost: \$850.00; includes Expanded Syllabus, morning and afternoon refreshments.

Registration Form: CES Certification Workshops

Send this form along with a payment of \$850 to: NREP, PO Box 2099, Glenview, IL 60025, Phone: 847-724-6631, Fax: 847-724-4223, or EMAIL: info@nrep.org

Payment Method: [] Credit Card or [] Make checks payable to NREP.

VISA, MasterCard or American Express Credit Cards accepted. FEIN 36-3638863.

The two-day workshop is normally conducted with the first day and half of lectures followed on the second day by the CES 2-hour exam.

This authoritative certification program was developed and is continually updated by a highly experienced advisory board of leaders from government, military and industry with over 100 years of combined experience in dealing with environmental site assessments. Workshop training is mandatory, as well as passing the CES certification examination.

CANCELLATION POLICY

If you cannot attend, written notification must be received seven (7) work days prior of selected workshop date at nrep@nrep.org or no refund will be issued. You may send a substitute person. In the event that the program is cancelled, neither NREP nor the instructor are responsible for nonrefundable travel or lodging deposits but will refund the cost of the program. The National Registry of Environmental Professionals is a legally recognized certification organization. (ICAB accredited).
